DEDICATED SERVERS

Dedicated server is a type of Internet hosting in which the client leases an entire server not shared with anyone else. This is more flexible than shared hosting, as organizations have full control over the server(s), including choice of operating system, hardware, etc.

Advantages of Dedicated Server with HostingHome;

01 - On-Demand Operating System

02 - Flexible Root/Administrator Access

03 - Highly Customizable Hardware Configuration

04 - NVMe SSD Storage

05 - Custom Configuration

06 - 99% Power and Network Uptime

07 - Advanced 24x7 Technical Support

08 - Higher Reliability

INFRASTRUCTURE

We have tied up with various such service providers who make sure that the data centers holding our servers are world class and feature a multi-homed redundant network. With the support of various state-of-the-art data centers, we ensure that the best router, server and firewall systems are used.

» State-of-the-art 4 Tier Data Centers

» Best-in-class router, server and firewall equipment

» 100% network redundancy

» 99.99% Network uptime

» 24x7 Network Optimization

» The state of cooling and power infrastructure

» Data Backup

» 24/7 Surveillance Monitoring

» Early Smoke Detection
