

Objective

Motivated and detail-oriented Computer Science graduate with a strong foundation in software testing principles and methodologies. Seeking an entry-level position as a Software Test Engineer to contribute to ensuring the quality and reliability of software products.

EDUCATION

B.tech (Computer Engineering)

Suryodaya college of Engineering Nagpur (78%)

08/2021 - 12/2024,

Polytechnic(Computer Engineering)

Sai Polytechnic Chandrapur (83%)

07/2019 - 06/2021,

HSC

Navbharat science College Mul

07/2017 - 06/2019,

SSC

Swami vivekand Vidya Mandir Mul

2017

EXPERIENCE

Internship Completed

Prodigy InfoTech 2025

Project 1 Calculator Test cases

Project 2 E-commerce Website For Products(<https://shoplane-by-lassie.netlify.app/>) (Manual testing)

- Check for layout issues, broken links, and functionality discrepancies. Document any findings and recommend fixes for compatibility issues in Markdown.

Project 3 E-commerce Website For Products(<https://www.saucedemo.com/>)

(Automation testing)

- You have to Include positive test cases (valid credentials) and negative cases (invalid credentials, empty fields)

- Use BrowserStack's Selenium Grid to run your test scripts across different browsers and devices.
- Test a login or form submission page across Chrome, Firefox, Safari, and Edge.
- Document any issues or inconsistencies across browsers.

Project 4 E-commerce Website For Products(<http://www.automationpractice.pl/index.php>)

- Verify each page transition and form validation message.
- Document your script and output, noting any issues encountered during automation.

Project 5 E-commerce Website For Digital marketing(<https://mydigitalcrown.in/>)

- Create a bug report

Training Software Testing(Uncodemy)

02/2024 - 08/2024,

Project 1 E-commerce Website for Kids' Products

- Conducted functional and regression testing for an e-commerce application.
- Designed and executed test cases to identify bugs and improve performance.
- Automated end-to-end test scenarios using Selenium WebDriver and TestNG.

Project 2 : API Testing for a Banking Application

- Performed API testing using Postman to ensure proper communication between services.
- Validated RESTful APIs using JSON and analyzed API responses for bugs.

SKILLS

- **Testing Techniques:** Manual Testing, Black Box Testing, Functional Testing, Non-Functional Testing
- **Automation Tools:** Selenium with Core Java

- **API Testing Tools:** Postman
- **Defect Tracking Tools:** Jira
- **Version Control Systems:** Git & GitHub
- **Programming Languages:** Core Java, Python, C, C++
- **Development Life Cycles:** SDLC , STLC
- **Test Management:** Test Case Creation, Test Execution, Bug Reporting and Tracking
- **Other Skills:** Regression Testing, Integration Testing, Web & Mobile Application Testing

CERTIFICATES

- **NPTEL Certification in Cloud Computing**
Certification in Cloud Computing from IIT
- **NPTEL Certification in Reinforcement Learning**
Certification in Reinforcement Learning from IIT
- **Software Testing Training Certification**
Certification in Software Testing Training
- **Software Testing Internship Certification**
Certification for completion of Software Testing Internship
- **Java Programming Certification**
Certification in Java Programming
- **Python Programming Certification**
Certification in Python Programming
