

Swati Pushpak Chaudhari

Automation Test Engineer | Selenium | Java | BDD

swatiborole@gmail.com | +918275517097

Professional Summary :

Detail-oriented and results-driven **Software Tester** with over **3 years of experience** in **Manual and Automation Testing**. Proven expertise in designing test cases, developing automation frameworks, and ensuring software quality using industry-standard tools and methodologies. Currently employed at **ARG Supply Tech** as a Software Tester and eAuction Consultant

Work Experience :

Software Tester & eAuction Consultant

Jun 2024 - Present

ARG Supply Tech

- Developed and maintained automation frameworks using Selenium WebDriver.
 - Defined testing strategies and coached team members on automation best practices.
 - Played a key role in ensuring the quality of deliverables across the development lifecycle
-

Projects :

Procdigi eAuction

A web-based solution designed to conduct real-time online auctions for procurement and selling across multiple sectors.

Key Contributions:

- Conducted end-to-end manual and automated testing of auction modules including lot creation, bidding, and result generation.
- Validated complex business workflows such as multi-round auctions, sealed bidding, and automatic bidder ranking.
- Collaborated with developers and stakeholders to resolve issues quickly, ensuring smooth and accurate auction execution.
- Performed regression and performance testing before major releases.
- Supported live auctions by verifying configurations and managing issue logs.

ProcDigi eRFQ

A digital procurement module allowing buyers to issue RFQs to registered suppliers, collect quotations, and finalize suppliers through a streamlined evaluation process.

Key Contributions:

- Designed and executed test scenarios for RFQ creation, supplier responses, document attachments, and bid comparison features.
 - Performed functional, integration, and boundary testing for the RFQ lifecycle.
 - Validated workflows including user role permissions, quote revisions, and approval hierarchies.
 - Ensured data consistency and usability across buyer and supplier dashboards.
 - Collaborated with the product team to resolve defects and improve UI/UX flows.
-

Skills :

- **Automation Tools:** Selenium WebDriver, TestNG, Rest Assured, Cucumber (BDD), Postman (API Testing), Jenkins (CI/CD).
 - **Core Competencies:** Test Automation Framework Development, Data-Driven Testing, API Testing, Regression Testing, End-to-End Testing, CI/CD Integration, Test Case Development, **Behaviour-Driven Development (BDD)**
 - **Programming Languages:** Java, SQL
 - **Frameworks:** Page Object Model (POM), Data-Driven Testing (DDT), **Cucumber (BDD)**
 - **CI/CD Tools:** GitHub, Jenkins
 - **Version Control:** Git
 - **Test Management & Tracking:** JIRA
 - **Methodologies:** Agile, Scrum, SDLC/STLC
-

Education :

- **Master of Computer Applications (M.C.A.)**
IMR College, Jalgaon — *Scored 58%*
 - Bachelor of Science in Computer Science (B.Sc.)
P.O. Nahata College, Bhusawal — *Scored 61.08%*
-

Certifications :

- **Full Stack Certification** in Automation Testing
 - **Diploma in Software Testing** from MindScripts (Grade A)
-
