UI/UX Designing

Softroniics

Higher Secondary

SSHSS Moorkanad 2020-2023

Profile

I am a dedicated and creative UI/UX designer with a proven track record of 6 months in the field. Throughout my budding career, I have enthusiastically undertaken a diverse array of projects, allowing me to cultivate a profound passion for the world of UI/UX design. My journey thus far has ignited a fervor for creating meaningful and intuitive user experiences, driving me to consistently deliver impactful results.

Projects

MINTO APP | Hotel Table Booking App

- Minto aims to simplify dining out by enabling users to easily reserve tables, while providing restaurant with efficient table management.
  Online payment system is designed to make money transaction easy

Colleague App | College Fine Arts Management

- The Fine-Arts Management app is designed to streamline and enhance the management of fine arts-related activities in a college setting. This comprehensive app aims to provide a centralized platform for artists, students, faculty, and administrators to collaborate, showcase, and manage various aspects of fine arts.

Library Website | College Library Management Website

- The College Library Management System is designed to streamline and enhance the efficiency of library operations within the academic institution. This web-based platform aims to provide a user-friendly interface for both library staff and students, optimizing the borrowing and management of educational resources.
