Summary

Greetings from the intersection of creativity and code! I hope this cover page finds you in a state of pixel-perfect bliss. I recently stumbled out of the university maze, clutching my degree and armed with an arsenal of design puns for careerpedia.

Projects

Herbo

Passionate UI/UX designer Designed and developed Herbo, an e-commerce website for indoor plant enthusiasts, facilitating plant selection and purchases tailored to home décor. Utilized Figma for design and implemented intuitive user interface for seamless browsing and buying experience. Integrated features for virtual plant visits, aiding customers in choosing the perfect greenery for their happiness.

Careerpedia platform

Contributed significantly to enhancing student management platforms. Leveraged skills to contribute significantly to platform upgrades, ensuring seamless user experiences. Seeking opportunities to continue driving innovation and usability in future projects."
