| * Cloud Computing | * Operating System - | * HTML, CSS, JavaScript | |

PROJECTS

Interview preparation App | [Android](#), [MySQL](#), [Rest Api](#), [Express js](#), [Node js](#), [React js](#) **Duration-3month**

- Developed an innovative interview preparation platform tailored for job seekers and hiring managers, featuring a responsive web application built with Node.js and React, complemented by a mobile app developed in Android. The platform includes features for practice interviews, job search tools, and real-time feedback, enhancing the hiring process and candidate readiness.

Antibody Sensitivity Testing | [Python](#), [MySQL](#), [Image processing](#), [Machine learning](#) **Duration-6Months**

- : This project aims to Predict the best antibody among all the antibodies on the slit. It will be beneficial for laboratory work, where the time to predict the best antibody will be reduced. To develop a system that will calculate the antibody's zone of inhibition and predict the medicine for it.

Internship

Oasis Infobyte Web Developer internship

A landing page : Created a landing page using html and css

Create a portfolio : Created a portfolio using html and css

Create a temperature converter : Created a temperature converter using html and css

CERTIFICATIONS

Introduction To Cloud Computing
