- Customize and integrate WordPress themes and plugins to meet client requirements.
- Collaborate with backend developers to integrate frontend components seamlessly.
- Troubleshoot and debug frontend issues to ensure optimal performance and user experience.
- Stay updated with the latest web technologies and industry trends to enhance skillset and project efficiency.

PROJECTS

Project Title : Nuksh Cabs Website
Development

Role : Frontend Developer

Description:

Led the development of the Nuksh Cabs website, a comprehensive platform aimed at providing seamless cab booking services to users. Leveraged HTML5, CSS, JavaScript, Bootstrap, and WordPress technologies to design and implement an intuitive user interface. Collaborated closely with the design and backend teams to integrate functionalities and maintain consistency in design and performance. Utilized Bootstrap framework to streamline the design process and ensure scalability. Successfully launched the website, contributing to increased brand visibility and customer acquisition for Nuksh Cabs.
