About

I am an aspiring UI/UX designer with a passion for creating intuitive and visually appealing digital experiences. With hands-on experience in designing user interfaces for various projects, including home rental apps and service management platforms, I bring strong technical skills in Figma, Photoshop, Illustrator, and Adobe XD. My creative background also extends to thumbnail creation, interaction design, and UI animation prototyping. I am always eager to learn new design trends and aim to deliver solutions that enhance user experience while meeting business goals

Education

May – Sep 2024 — **UI/UX Design Training**

Zoople Technologies

Completed a comprehensive training program in UI/UX design, gaining hands-on experience in designing user-friendly interfaces and enhancing user experience.

2021 - 2024 — **Bachelor of Computer Applications (BCA)**

Calicut University, Malabar College of Advanced Studies Vengara

I completed my degree in March 2024. During my studies, I focused on developing practical skills in programming and software development, culminating in my final year project, Labour, which aimed to streamline the management and assignment of labor services.

Experience

Zoople Technologies

UI/UX Design Intern | September 2024 (1 month)

Gained hands-on experience in designing intuitive user interfaces and enhancing user experience through wireframing and prototyping. Collaborated with cross-functional teams to create design solutions for various projects, ensuring usability and accessibility standards were met. Participated in user research and testing to gather feedback and improve design iterations.

Certifications

Talrop UI Engineering Camp

UI Engineeering

Completed a 10-Day workshop focused on the principles of UI/UX design, enhancing skills in user-centered design, prototyping, and usability testing.
