creative computers

THINK I.T. THINK CREATIVE

ABOUT US

Established in 1999, Creative Computers has been a prominent force in the field of Information Technology. Specialising in providing technology solutions, we've enabled hundreds of organisations to achieve their objectives. Our clients range from various domains making us a reliable choice for many.

HARDWARE

Hardware defines the capability of a company and the resources it has put in to achieve its targets. To satisfy this need and equip organisations with the best machines available, we offer our customisable hardware solutions service. We've been associated with brands like Dell, HP, Lenovo, Intel, AMD and many more. With a resume like this, you know who to choose for your company.

SOFTWARE

The right hardware is matched only by the right software. Creative Computers will provide you with excellent software solutions so as to keep you and your company at the top of the game. Independent partnerships with Microsoft, Tally, Adobe etc underline our level of expertise.

NETWORKING

A strong & secure network is the need of every organisation. We at Creative Computers guarantee a system of dependable IT infrastructure which empowers you to run your business smoothly and concentrate only on accomplishing your objectives. Our services include structured networking, firewall, Wi-Fi, backup & storage solutions.

MAINTENANCE

Every IT setup requires a reliable team that will help avoid downtime and inconvenience. Our highly trained team of expert engineers ensure you're never in trouble when you need your systems the most.

CLOUD SERVICES

Cloud Computing is the use of hardware and software to deliver a service over a network (typically the Internet). With cloud computing, users can access files and use applications from any device that can access the Internet.

At **Creative Computers** we believe that cloud and consumerization will drive future technology strategy and help business grow effectively. We suggest and give a strong recommendation to our clients to consider a "cloud first policy" while deciding Infrastructure.

Our competency teams have hands-on experience in deploying and migrating applications on leading cloud platforms. In addition to that, we provide on-going support services for data and applications migrated to the cloud.
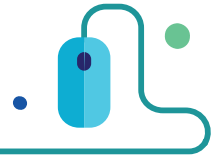

Cloud Platform Expertise

- Amazon Web Services (AWS)
- Microsoft Windows Azure
- Microsoft 365
- G Suite

5 Reasons Cloud Computing Is Key to Business Success

- Cost Savings
- Ease of Use
- Increased Storage Capacity and Automation
- Agility, Flexibility and Scalability
- Freeing up Your IT Staff
