

**REDUCE YOUR COSTING ON
ENERGY BY 99 %**

INSTALL SOLAR ON YOUR ROOF REDUCE YOUR ELECTRICITY BY 99 %

- 25 Year Warranty
- Repayment In 2-3 Year
- Attractive Govt. Incentive
- Easy Finance Available
- Zero Operating Cost
- Free Electricity For 25 Years

HOW IT WORKS

Solar panels catch sunlight and turn it into electricity. They make a special kind of power called "DC." This power goes to a device called an inverter, which changes it into the kind of power our homes use, called "AC."

Now, we can use this power to make our TV, fridge, and other machines work. If there's extra power, we send it to MSEDCL, like giving back extra electricity.

Here's an example: At noon, the solar system makes 10 units of power. But, we only need 3 units at that time. So, we use 3 units, and the extra 7 units go to MSEDCL. We can use these extra units at night when the sun isn't making electricity.

There's a special meter that keeps track of how much electricity we use and how much we give back. It's like a scorekeeper for electricity.

When we get our monthly bill, it depends on how much we used and how much we gave back. For instance, if we gave back 100 units and used 100 units, our bill is almost zero.

If we give back more than we use, the extra units go to MSEDCL, and we can use them in the next month. But if we use more than we give back, we might have to pay for the extra units we used.

So, solar power helps us use sunshine to power our home, and we can even share some with others!

ON-GRID SYSTEM FOR HOUSE

➤ Subsidy Form Central Government

(For society 18000per Resdinital 1KW-3000
2kw-60000 3KW-78000

➤ Repayment Within 3-4 Years.

➤ 5% Discount In Property tax

➤ Easy EMI Available

➤ Monthly EMI = Current Monthly Bill

Example

Electricity Bill	Project Cost (Without Subsidy)	Monthly EMI (48 months)	Payback Period (With Subsidy)
3000-4000	1,70,000/-	3,750/-	30 Months

FINANCE OPTION

₹ DOWN PAYMENT
MINIMUM 20%

COLLATERAL REQUIREMENT
NO COLLATERAL NEEDED

PROCESSING FEE
2%

Residential

Tenure	36 Months	48 Months	60 Months
Flat Rate of Interest (starting from)	7.49% p.a	7.99% p.a	11.15% p.a

Documents Required

- Aadhar Card
- Pan Card
- Electricity Bill
- Last 3 Years ITR
- 6 Months Bank Statement

ON GRID SYSTEM FOR HOUSING SOCIETY

➤ Subsidy From Central Government

(For First 3KW:- 14000 Per KW, Above 3KW:- 7000per KW)

➤ Repayment Within 3-4 Years.

➤ 5% Discount in Property tax

➤ Easy EMI Available

➤ Monthly EMI = Current Monthly Bill

➤ PPA Model Also Available (Zero Investment)

Example

Electricity Bill	Project Cost (Without Subsidy)	Monthly EMI (36 months)	Payback Period (with subsidy)
15000-20000	6,90,000/-	19,750/-	3.1 years

FINANCE OPTION

Documents Required

- KYC
- Gst Certificate & Company Registration Certificate
- Latest Electricity Bill
- 3 Years ITR & 12 Month Bank Statement

SOLAR PPA FOR GROUP HOUSING SOCIETIES !

THE PPA IS OFFERED FOR 5 KW AND ABOVE

- Own Solar Plant For Free
- Pay-As-You-Save
- Zero Up-Front Cost
- Hassle-Free-warranty,
- Insurance For The Solar Plant
- Maintenance Support

**TOTAL BILL WILL
BE CAPPED AT
RS.1500/kW/MONTH**
ADJUST AT THE END OF THE YEAR

Particulars

Tenure (in years)	5
Bank Guarantee (%)	20%
PPA Amount (Rs/kW/months)	Rs.1,500

WHO WE ARE

PV Solarize Energy System Pvt Ltd Is Solar Company With Decade Of Experience. We Have Installed Thousands Of Solar Panels Across India, From Small Residential Projects To Large Commercial Projects. We Are One Of The Leading Solar Solution Providers In The Country With A Mission To Deliver Affordable, Environment-friendly Clean Energy. Founded In 2013, We Have Quickly Established Ourselves As A Prominent Player In The Renewable Energy Sector, And Have Gained A Reputation For Delivering High-quality Products And Services. Our Company Is Approved By MNRE For JNNSM, Which Is A Testament To Our Commitment To Excellence. We Are Among The Top 10 Oldest EPC Companies In India.
