I hereby declare that the information given above is true to my knowledge & beliefs

PROJECTS

Title : Bharat Crafted (Art Gallery System)

📅 2024

Platform : Spring Boot, React JS, MySQL, ASP.NET

Github : <https://github.com/SAURABHPATIL46>

- **Developed a full-stack e-commerce platform** using **Spring Boot** and **React** to support local artisans by providing a digital marketplace.
- **Implemented secure multi-role login** with session management and role-based access control using the Identity framework, ensuring user data protection.
- Utilized **Hibernate and Entity Frameworks** for efficient ORM-based data handling with **MySQL**, supported by a **Bootstrap-enhanced UI** for improved user experience.
- **Integrated generative AI tools** to optimize content creation, improve code suggestions, and enhance system architecture for better scalability and performance.
- Integrated **RESTful APIs** to enable smooth communication between the backend and frontend components.

Title : Art Gallery Auction System

📅 2024

Platform: HTML, CSS, REACT JS

Github : <https://github.com/SAURABHPATIL46>

- Developed a comprehensive **Art Gallery Auction System** using **React JS**, implementing full **CRUD functionality** for artwork and bidding list management.
- Enabled users to efficiently create, update, and participate in auctions through a responsive and user-friendly interface.
