Summary

- Android Developer with 1 year of experience building mobile applications for Android platforms. Proficient in Java, Kotlin, and Android SDK, with a deep understanding of mobile architecture patterns, UI/UX principles, and performance optimization. Experienced in integrating APIs, third-party libraries and app functionality. Adept at debugging, testing, and maintaining applications to ensure high performance, reliability, and scalability. Passionate about staying updated with the latest Android trends and continuously improving skills to deliver innovative, user-friendly mobile solutions technical communication.

Experience

- **Pravara Rural Hospital**   02/2023 - 04/2024
  Software developer
  • Developed Android applications, by writing efficient code and integrating systemsseamlessly.
  • Worked on vision system applications, reporting systems using Kotlin, JAVA, MySQL, and SQL Server Management Studio (SSMS),solving coding problems and developing functional and efficient code.
  • Conducted manual testing of applications to ensure quality, reliability, and adherence to requirements.
  • Contributed to optimization and standardization efforts in existing projects to enhance performance and maintainability.
  • Demonstrated excellent attention to detail and the ability to maintain consistency in documentation and communication.
  • Proven analytical skills and a creative approach to problem-solving.
  • Handled client interactions, provided support and attended to client requirements to ensure satisfaction and successful project delivery.

Education

- **Pravara rural engineering college Ioni**   2025
  BE
  7.40

Skills

- Programming Languages:- Kotlin, Core Java, SQL
- Database Management:- MS SQL Server, MySQL, SQL Server Management Studio (SSMS)
- Web Technologies:- HTML, CSS Tools & IDEs Git & GitHub, Figma, Android Studio, Gradle, Visual Studio Code (VS Code), IntelliJ IDEA

Projects

- **Vision System Applications**
  • Developed vision system applications utilizing Kotlin and MySQL.
  • Implemented color detection functionality to determine job status (OK/NOK) based on pixel count.
  • Developed image processing application.
  • Developed quality check application.

Declaration

- I hereby declare that the above-mentioned information is correct to the best of my knowledge. I hope that my experience, skills and qualification would meet yourrequirements, and I am eagerto be given the opportunity to serve your prestigious organization
