

UNLOCKING INFINITE  
POSSIBILITIES WITH  
**CLOUD COMPUTING**

# INTRODUCING ABSOLUTE CLOUD

---

Welcome to Absolute Cloud, where we strive towards making the future meet the present. We're your passport to the digital realm, redefining the essence of Cloud Computing Services.

At Absolute Networks, we go beyond just offering services; we craft experiences. An unwavering passion for innovation drives our team, and we thrive on pushing the boundaries of what's possible, constantly exploring cutting-edge technology. We are not just tech enthusiasts but architects of trust. We've built our brand on a foundation of credibility, ethics, and trust.

So, whether you're scaling up, migrating to the cloud, or seeking to harness the power of future tech, Absolute Cloud is your compass in the digital wilderness. When you choose us, you choose a partner committed to your success. Join us on this exhilarating journey of innovation and excellence.

## OUR VISION

---

To ascend as the premier Global Cloud Solution Provider, delivering unrivaled solutions swiftly, executing seamless deployments, and achieving nothing short of "Absolute" customer satisfaction.

## OUR MISSION

---

To empower organizations to harness the full potential of cutting-edge IT solutions.

We endeavour to stay dedicated to enhancing the Availability, Accessibility, and Affordability of every client's product and service with our team of champions, committed to being their very best.

Our goal is to be present to assist, ignite inspiration, educate, and tailor the finest solutions for every valued customer.

# OUR PRODUCTS

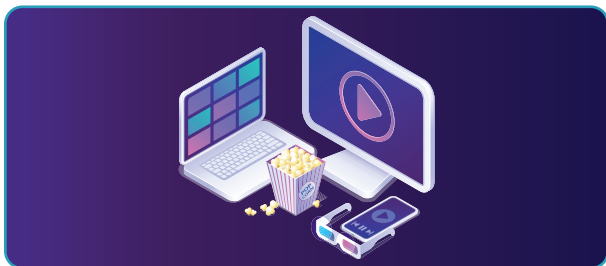

## Dedicated Application Servers

We specialize in making any application cloud-enabled, by moving your office server data to a cloud server ensuring accessibility Anytime, Anywhere, and on Any device. (ERP, CRM, SAP, Ornate, RetailWizz, FlexiPOS)

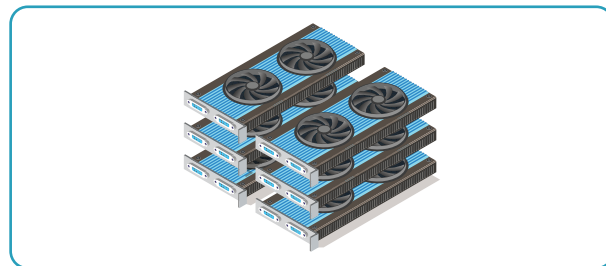

## Dedicated Web Hosting Servers

Host your website/web applications seamlessly at high speed on our Dedicated Web Hosting Servers. We cater to CWP Pro, Plesk & C Panel - Mobile Application NGINX/PHP, Tomcat, Streaming Video & CDN servers.

## Video-Streaming & OTT servers

We empower Edu-tech platforms for high bandwidth live streaming for over a Lakh students at a time. We also provide CDN services for OTT platforms ensuring uninterrupted high definition video play across millions of users worldwide.

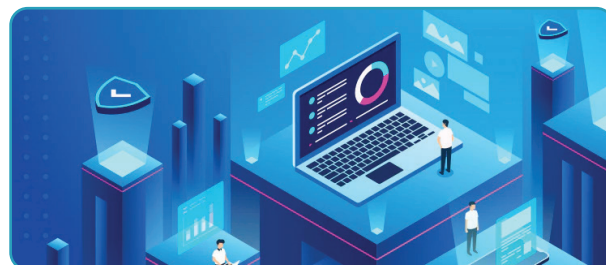

## NVIDIA – GPU Servers

Experience unparalleled computing power with our H100 Cloud GPU services. Ideal for AI, machine learning, and graphics-intensive tasks, the H100 offers high-speed processing and seamless scalability, tailored to meet demanding workloads. Empower your applications and LLM with top-tier performance.

## Tally on the Cloud

We enable Tally to be accessed online anytime, anywhere, on any device, bundled with hourly data backups and 24/7 support. As specialists in white labeling, we empower Tally partners to launch their own Tally on Cloud services. We also support other accounting software like Busy, Marg, Spectrum, and Profit.

## TSPlus & TSprint

TSPlus enables seamless access to Windows applications like SAP, Logix, RetailWhizz, and Udyog from any device—iPad, Mac, Linux, or mobile—anytime, anywhere, with no code changes required. Paired with TSprint, enjoy fast, driverless printing from RDP/Citrix servers, resolving remote printing challenges effortlessly.

# OUR SIX SIGMA ARCHITECTURE

## Implementation and Infrastructure

We provide optimized hosting for online operations, including remote server publishing, multi-user performance, and application tuning, with robust security for restricted access. We are hosted at India's top datacenter, Netmagic by NTT data. Also at USA and EU regions.

ISO:27001 and ISO:9001 certified.

## Business Continuity & Disaster Recovery

Ensure near 100% uptime by implementing automatic failover among 5+ internet providers, ensuring seamless operations 24x7, 356 days. Business continuity is provided with additional stand-by servers and quick recovery (<2hrs) in case of a rare event of primary server failure. Disaster recovery of remote locations is provided with defined RTO & RPO, as per business needs.

## Daily Snapshots and Backups

Daily snapshots and versioned backups protect data from corruption, disasters, and malware, with 7-day image retention on separate infrastructure and a 30-day enterprise backup. Database backups are encrypted, versioned, and deletion-protected with delta incremental scheduling, using solutions like CrashPlan PROe, Veeam, Acronis, and Syncrify Rsync.

## Seamless Application Access & Printing

Implement TSPlus Application Publishing to restrict user access to specific applications and enhance system performance, while ensuring security. Utilize TSprint and other tools for smooth, fast seamless printing.

## Instant Tech Support

Each customer receives personalized round-the-clock support from a dedicated Relationship Manager for immediate assistance. Rapid service responses ensure that you can leave your IT concerns to us.

## Security Services

- Antivirus: Trend Micro Smart Apex One Suite - Top-rated security with AI/ML and Cloud tech for ransomware and virus protection, Zero-day vulnerability protection.
- Backup: CrashPlan PROe and Veeam - Trusted by global enterprises like Apple, MIT, and Stanford.

# WHAT MAKES US BETTER?

## 5-Minute Service Response Time

We guarantee a 5 minute response time to all your IT queries by providing a personalised on-call support from a dedicated Relationship Manager. A near 100% uptime and swift responses ensures an absolutely smooth and comfortable journey.

## Experts in Cloud Computing Solutions

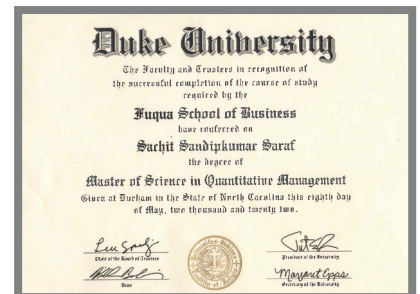

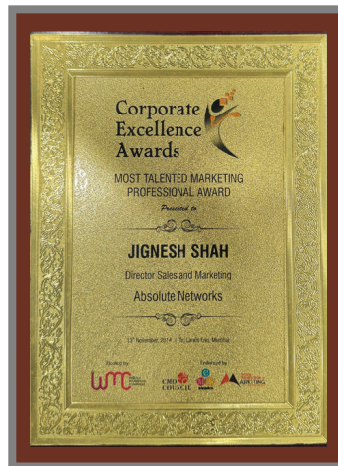

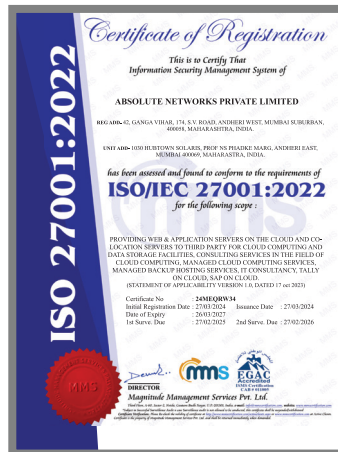

With our deep expertise in cloud computing, we can optimize your cloud solutions for efficiency, scalability, and security.

## Unrivalled Server Performance and Uptime

Experience uninterrupted service with our servers, delivering exceptional performance and unmatched uptime reliability.

## Trusted by Industry Leaders

Join a prestigious list of industry leaders who trust us for their IT needs. Our clients include renowned organizations who rely on our solutions for their success.
