Work Experience

ARRC TECHNOLOGY, Pune   Feb 2025 - Present
Web Developer Trainee (Intern)

- Developed and maintained **full-stack web applications** using the **MERN stack** (MongoDB, Express.js, React.js, Node.js), improving user engagement
- Optimized frontend performance using React hooks, Redux, and Tailwind CSS, cutting page load time.
- Built RESTful APIs with Express.js for a rental booking platform, enabling seamless property searches and bookings with JWT authentication.
- Integrated third-party APIs to enhance platform functionality.
- Collaborate using Git/GitHub.

Education

Master of Computer Application	Jun 2023 - Present
Bachelor of Computer Application	Jun 2020 - Jun 2023 - 81.77%
XII (HSC)	Jun 2019 - May 2020 - 72.15%
X (SSC)	Jun 2017 - May 2018 - 85.40%

Project Work

GreenMart(Online Grocery Store): Developed an e-commerce platform for grocery shopping with features designed to streamline the online shopping experience. The system enables users to register, browse categorized grocery items, add products to cart, place orders, and complete secure online payments via Stripe integration, enhancing convenience and customer satisfaction

Online Rental and Booking Platform : Developed a dynamic online rental and booking platform allowing users to search, browse, and book properties for short-term stays.The platform includes user registration, property listings, booking management,map location,reviews.

Zerodha Clone(Stock Trading Platform): Built a lightweight clone of Zerodha's trading interface with stock market data. Implemented user portfolios, watchlists, Holdings,Positions,Orders,Charts with responsive design.

Awards and Certificates

- Full Stack Web Development (MERN Stack) by 30Dyas coding.com
- C and C++
- Core Java
- Data Structures and Alogorithms
- Volunteering in International Conference on The Changing World .

  Organised by University of Technolgy, Mauritious & University of Vavuniya, Sri Lanka.
