Summary

I am Enthusiastic and technically proficient Computer Science graduate, seeking a Full Stack Java Developer role to apply hands-on experience with Java, Spring Boot, MySQL, and REST APIs gained through academic projects and internship experience.

Experience

- **PHN Technology**   April 2024 - November 2024
  Software Developer Intern
    1. Developed RESTful APIs using Java and Spring Boot for backend functionality.
    2. Participated in module testing and performance tuning of the Insurance Policy Management System.
    3. Worked collaboratively with senior developers to fix bugs and enhance application performance.
    4. Utilized Git for version control and team collaboration.

Education

- **Solapur University**   2020 - 2024
  B.Tech in Computer Science Engineering
  9

Skills

- Languages: HTML, CSS,Javascript, Java
- CSS Frameworks: JDBC, Spring, SpringBoot, Hibernate, JSP/Servlets, React.js
- Database: PLSQL, Oracle, PostgreSQL, MongoDB
- Tools: Git, Github, Maven, Postman, Docker, Jenkins, JIRA
- Concepts: REST API, Microservices, MVC, JWT, CI/CD

Projects

- **Insurance Policy Management System**
  - Role: Java Backend Developer
  - Tools: Java, Spring Boot, MySQL, STS
    1. Engineered backend logic to manage over 25 interconnected database tables for policyholder management.
    2. Implemented robust CRUD operations and ensured data consistency using JDBC and MySQL.
    3. Emphasized on normalization, data integrity, and clean UI interaction flow.

Achievements & Awards

- Completed Employability Skill Development Program – Zensar (July 2023)
- Completed Azure Fundamentals Virtual Experience Program – Microsoft (April 2021)
