Government High School

EXPERIENCE

MERN Stack Developer Intern *Techup Technology, Varanasi* *Worked on full-stack web applications using React, Node.js, Express, and MongoDB. - Contributed to backend API development and frontend UI integration. - Gained practical experience with REST APIs, form handling, and user authentication. - Collaborated with the team using Git and GitHub for version control.*

28 March -30 June

PROJECTS

Blogging Website | *MERN Stack* [<GitHub Link>](#)

- Developed a blogging website using HTML, CSS, JavaScript, and React for the front-end, and Node.js with Express for the back-end.
- Implemented MongoDB for database management to store user credentials and blog data.
- Created a user authentication system with login and signup pages for personalized access.
- Enabled users to create, publish, and comment on blogs, facilitating interaction and expression of viewpoints.

Todo Web Application | *MERN Stack* [<GitHub Link>](#)

- Developed web applications using HTML, CSS, JavaScript, and React for front-end, with Node.js and Express for back-end. Utilized MongoDB for database management in various projects.
- Implemented create, read, update, and delete operations for managing tasks.
- Developed RESTful endpoints to seamlessly connect the client-side with the server.
- Designed a user-friendly interface that works across different devices and screen sizes.

Portfolio Website | [<GitHub Link>](#)

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase my skills, projects, and achievements.
- Designed and implemented a custom user interface with interactive features for enhanced user experience. Developed RESTful endpoints to seamlessly connect the client-side with the server.
- Designed a user-friendly interface that works across different devices and screen sizes.
- Integrated contact forms and social media links to facilitate networking opportunities.
