Suyash Mulay

Entry-Level Software Engineer | Front End Developer

Pune, Maharashtra, India | +91 7350260484 | suyashm123@gmail.com |linkedin.com/in/suyash-mulay-882230216

SUMMARY

Enthusiastic and results-driven Computer Engineering graduate with a strong foundation in **front-end web development, including HTML, CSS, JavaScript, Tailwind CSS, and entry-level React**. Eager to leverage strong problem-solving skills and a passion for learning new technologies to contribute to innovative software projects. Possessing a solid understanding of **object-oriented programming** and practical experience with **React library**, **Tailwind framework**, and real-time communication technologies in front-end development.

SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, C++
- **Front-End Technologies:** React, Tailwind CSS
- **Soft Skills:** Problem-Solving, Quick Learner, Adaptability, Communication, Team Collaboration

PROJECTS

Real-Time Chat Application | Sept 2023 – Nov 2023

- Developed a dynamic, real-time web-based chat platform using **HTML, CSS, and JavaScript** with **WebSocket** integration for instant messaging.
- Implemented core chat functionalities including user authentication with unique usernames, creation and joining of distinct chat rooms, and real-time message exchange.
- Designed an intuitive and responsive user interface, incorporating features like message display area, input field, message scrolling, and basic text formatting (bold, italics, links).
- Demonstrated proficiency in front-end development and client-server communication for interactive web applications.

Inventory Management System | March 2023 – May 2023 (Final Year Project)

- Developed a desktop-based Inventory Management System using Python with the Tkinter library for a user-friendly graphical interface.
- Implemented core functionalities for managing inventory parts, including adding, updating, deleting, and searching records.
- Integrated an SQLite database for persistent storage and efficient retrieval of inventory data, ensuring data integrity.
- Aimed to streamline inventory control processes, demonstrating foundational understanding of database interaction and application development.

EDUCATION

Dr. D.Y. Patil Institute of Engineering and Technology, Ambi, Pune Bachelor of Engineering (B.E.) in Computer Science July 2019 – Sept 2024

Residential Jr. College of Arts, Commerce & Science, Ahmednagar Higher Secondary Certificate (HSC) - 68% aggregate June 2017 – June 2018

Shri Samarth Vidya Mandir Prashala, Savedi, Ahmednagar Secondary School Certificate (SSC) - 94.60% June 2015 – June 2016

LANGUAGES

- **Marathi:** Native or Bilingual Proficiency
- **Hindi:** Professional Working Proficiency
- **English:** Intermediate Working Proficiency

INTERESTS

Reading, Listening songs, Programming
