Education :

Pimpri Chinchwad College Of Engineering Ravet

B.E In Computer Engineering
CGPA : 8.1/10

Pune, India
2020 – 2024

Chaitanya's International School -Baramati

Secondary Education /HSC
Percentage – 76.50 %

Pune, India
2018 – 2020

PROFESSIONAL SUMMARY

- I have done 6 months Internship in software development, particularly focusing on **.NET technologies** and **Frontend technologies**, I am confident in my ability to contribute effectively to your team.
- Throughout my career, I have successfully **designed, developed, and maintained** robust **.NET applications**, demonstrating strong problem-solving skills and a dedication to delivering high-quality solutions.
- Having good knowledge about server-side languages such as .Net Framework, .Net core, C#, ASP.NET, MVC, LINQ, Lambda Expression, Rest Web APIs, Entity Framework Web APIs etc.
- Extensive experience with SQL Server writing stored procedures and queries and Accessing Database Table SPs and Triggers using ADO.NET and Entity Framework.
- Design and Implementation of solutions using SOLID principles and Design patterns.
- Familiar with testing tools Fiddler and Postman and Used to tracking tools Azure Board for daily task.

PROJECT 1

Project Name: **TexSpin. (CRM) System.**

Description:

Develop a comprehensive CRM system to manage customer interactions, sales leads, and marketing campaigns efficiently.

Key Features:

- * **Contact Management:** Store and manage customer contact information. Implement CRUD operations for adding, updating, and deleting contacts. Allow searching and filtering contacts based on various criteria.
- * **Lead Tracking:** Track sales leads through different stages of the sales pipeline. Implement functionalities for lead assignment, follow-ups, and status updates. Provide a visual representation of the sales pipeline for better insight.
- * **Pipeline Management:** Manage sales pipelines with customizable stages, probabilities, and revenue forecasting. Monitor and analyze pipeline performance to identify bottlenecks and opportunities.

- * **Marketing Campaigns:** Create and manage marketing campaigns across multiple channels. Support various campaign types such as email campaigns, social media campaigns, etc.
- * **Reporting:** Generate detailed reports and analytics on sales performance, customer interactions, and campaign effectiveness. Provide customizable dashboards for real-time insights and data visualization. Support exporting reports in different formats for sharing and analysis.

TECHNOLOGIES USED

HTML5, CSS3, JavaScript, JSON, C#, ASP.NET, Entity Framework, SQL, LINQ, Micro-Service, SQL Server Azure.

PROJECT 2

Project Name: [PharmaHub: Centralized Platform for Pharmacy Services and Information.](#)

Description:

PharmaHub (Centralized Platform for Pharmacy Services and Information) is poised to transform the pharmacy industry by providing a centralized platform for pharmacy services and information. With its innovative features, robust technology stack, and commitment to excellence, PharmaHub aims to empower users, enhance efficiency, and promote community health and well-being.

Key Features:

- **User Authentication and Authorization:** PharmaHub ensures secure access to its features through robust user authentication and authorization mechanisms. Users can register, login, and manage their accounts securely.
- **Pharmacy Listings:** Pharmacies can register on PharmaHub and provide detailed information about their services, including location, operating hours, available medications, and other offerings.
- **Advanced Search Functionality:** Users can easily find pharmacies based on various criteria such as location, services offered, availability of specific medications, and user ratings.
- **Order Management System:** PharmaHub facilitates seamless order placement for prescription medications and other pharmacy products. Users can track the status of their orders in real-time.
- **Admin Panel:** An intuitive admin panel allows administrators to manage pharmacies, users, orders, and other system configurations efficiently.
- **Notification System:** PharmaHub keeps users informed about order status updates, promotions, and important announcements through a comprehensive notification system.
- **Responsive Design:** PharmaHub offers a responsive and user-friendly interface accessible across various devices, including desktops, tablets, and smartphones.

TECHNOLOGIES USED

HTML5, CSS3, JavaScript, JSON, Ajax, C#, ASP.NET, .NET, MVC5, SQL Server,

TECHNICAL SKILLS

Languages: OOPS, C#

Server-Side Technologies: .Net core, ASP.NET MVC5, WEB API, LINQ, Entity Framework, ADO.NET, Lambda expression, .Net Core.

Database: SQL Server

Front end Technologies: HTML5, CSS3, JavaScript ,Bootstrap ,ReactJS.

Front End Tools: Visual Studio , VsCode , SQL Server Management Studio.

Other Tools: Postman, Swagger **version.**

Control: Git, Github

Tracking Tools: Azure Board.
