INTERNSHIP

Logical Softtech Pvt Ltd

1 2024 – 06 2024

React-Frontend Developer

indore, India

- Roles and responsibilities carried out **During my internship, I played a key role in developing a crucial feature for our live project, collaborating closely with my team. I managed complex tasks, ensuring seamless integration with the existing codebase, and received praise for proactive problem-solving under challenging time constraints. Additionally, I gained valuable experience in API integration.**

Employer

Codemeg SoftTech Pvt Ltd

01 2025 – 10 2025

React-Frontend Developer

indore, India

- Contributed as a **React Developer Intern**, where I developed and optimized responsive web applications using React.js. Implemented modern tools and practices to deliver high-quality features and ensure seamless user experiences.
- Leveraged AI-driven tools to accelerate development workflows, achieving up to **3x faster productivity** while maintaining code quality.
- Utilized **Redux Toolkit** for efficient state management, enabling centralized data handling and smoother integration across components.
- Collaborated in API integration and handled basic backend tasks, enhancing my full-stack understanding and contributing to project scalability.
- Worked closely with the team under tight deadlines, showcasing strong problem-solving, debugging, and collaboration skills, which were highly appreciated by mentors.

Titan Project | React JS Based

2025

- Developed a social media platform where users can create and upload posts, sponsor them, and follow/unfollow other users.
- Integrated **Razorpay** for secure payment processing and implemented **Google & LinkedIn authentication** for easy onboarding.
- Leveraged **Redux Toolkit** to ensure smooth state management and seamless user experience across the platform.

QuadCrest – Survey SaaS Web Platform | Frontend Developer (React)

04 2025

- Contributed to building a **Survey SaaS platform** empowering businesses with insightful customer feedback and data-driven decision-making.
- Developed responsive and dynamic UI components using **React.js**, ensuring seamless user experience across survey tools, dashboards, and multi-location management features.
- Implemented **real-time data visualization** and interactive dashboards, enabling clients to track insights effectively.
- Collaborated with backend developers to integrate REST APIs and ensure smooth data flow between frontend and server.
- Focused on scalability, performance optimization, and clean code practices to deliver a high-quality user experience.
