SUMMARY

Software Developer with expertise in front-end technologies like HTML, CSS, JavaScript, and React.js for building responsive user interfaces. Skilled in back-end development using Core Java, JDBC, Hibernate, Spring Framework, and Spring Boot to create scalable and efficient applications. Proficient in MySQL for database design and management. Capable of developing full-stack web applications, integrating APIs, and working in Agile environments. Additionally, experienced as a **Salesforce Developer** with knowledge of Salesforce basics, Lightning Experience (LEX), **Lightning Web Components (LWC), Apex, and basic Salesforce configuration** for customizing and automating business processes.

SKILLS

UI & Frontend

Web Technologies	React.js	Redux	Material UI

Programming Language, Frameworks And Data Base

Core JAVA	JDBC	Spring Framework	Hibernate	Spring Boot

REST APIs	MySQL

Salesforce Technologies:

Apex Programming	SOQL & SOSL Queries	Salesforce Configuration

Lightning Web Components (LWC)	Aura Components

REST API & SOAP API	Data Migration	Deployment

PROJECTS

Machine Tool Maintenance Portal (123FormBuilder)

Develop Using Lightning Web Components (LWC), Aura, Apex, JavaScript, SOQL, SLDS, AWS S3, Custom Metadata, Responsive UI Development

- **LWC Portal Video Homepage Development:** Designed and implemented a custom Lightning Web Component to present personalized welcome content, dynamic resources, and embedded training/demo videos with modal playback from AWS S3, streamlining user onboarding and support.
- Ensured responsive UI and automated video categorization using SLDS, AWS S3, and custom metadata.
- **Installed Product Video Display Solution:** Engineered and merged an Aura component, JavaScript controller, and Apex backend to fetch and render both RMO and Work Order videos on Salesforce record (Installed Product) page layouts.
- Integrated optimized SOQL queries, responsive UI, and secure AWS S3 video streaming for both video types.
- Automated video categorization and metadata mapping, creating a scalable and user-centric experience for equipment maintenance records.

Loan Management System Using Blockchain

Develop using HTML, JS, JAVA, MySQL

📅 08/2023 - 05/2024

- A Loan Management System developed using HTML, JavaScript, Java, and MySQL integrates blockchain for secure, transparent loan processing, enabling smart contracts, real-time tracking, and tamper-proof transaction records.
- Smart contracts automate loan disbursement, repayment, and interest calculations, ensuring compliance and efficiency.

EXPERIENCE

Associate Software Developer Trainee at Twopir Technology & Consulting Pvt. Ltd

📅 08/2025 - 11/2025   📍 Pune

- Participated in training focused on Salesforce and core development technologies.
- Acquired hands-on experience in LWC, Apex, SOQL, and SOSL.
- Performed basic Salesforce configuration: custom objects, fields, validation rules, and workflows.
- Assisted in building custom Lightning components for business requirements.
- Developed Apex classes, triggers, and test classes.
- Debugged issues, performed unit testing, and documented solutions.

Software Developer at Hematite Infotech Pvt. Ltd

📅 01/2025 - 03/2025   📍 Pune

- Worked as a Software Developer Intern using React.js, Java, Spring Boot, JDBC, Spring Framework, and Hibernate to build and maintain full-stack apps.
- Implemented backend services with Java, Spring Boot, and the Spring Framework, ensuring scalable and secure RESTful APIs.
- Utilized JDBC and Hibernate for efficient data access, persistence, and interaction with a MySQL database.

EDUCATION

Bachelor of Engineering in Information Technology

Pune university

GPA **8.66** / 10

📅 02/2021 - 05/2024
📍 Ahilyanagar, Maharashtra

Class XII

R.C.S.A.H.S.Vidyalaya MIDC Ahilyanagar

GPA **7.49** / 10

📅 08/2018 - 05/2020
📍 Ahilyanagar, Maharashtra
