## WORK EXPERIENCE

### Baap Company, Sangamner

Intern Mobile App Developer

2023 - Present

- Worked in a professional development environment, contributing to both client and internal Flutter projects.
- Gained hands-on experience in real-world application development, focusing on scalable and efficient mobile solutions.
- Built modules for Digital Parbhani (Smart City App) and Office Book (Office Automation Tool) as part of internal projects.
- Developed and maintained Opinion App, a client project.
- Integrated REST APIs, implemented CRUD operations, and managed app state using GetX for smooth functionality.
- Collaborated with cross-functional teams to enhance UI/UX, optimize performance, and ensure responsive design.
- Followed Agile workflows, used GitLab for version control, and contributed to structured software development practices.

Flutter Intern

2023 - Present

## EDUCATION

### University Of Mysore

BCA

July 2023 - July 2026

### University Of Pune

HCS

2023/2023

## PROJECTS

### OPINION APP

- Developed major app modules including Notifications, Account Management, and Topic Creation.
- Integrated REST APIs and handled state management efficiently using GetX for real-time updates.
- Enhanced the user experience by implementing role-based access, authentication, and smooth UI/UX.
- Utilized Flutter, GetX, and REST APIs in the development of the Opinion App.

### DIGITAL PARBHANI – AI BASED SMART CITY APP

- Developed a scalable mobile application for city-level management and citizen engagement.
- Worked on Task, Category, and Subcategory modules to streamline service management operations.
- Integrated REST APIs and implemented CRUD functionality with smooth UI flow using Flutter and GetX.
- Focused on modular development and user-centric design to enhance system efficiency.
- Utilized Flutter, Dart, GetX, and REST APIs to achieve efficient system development.

### Office Book – Internal Office Automation Tool

- Built key modules for Task Management and Appointment Scheduling to optimize office productivity.
- Implemented dynamic task creation, priority settings, and status updates with backend connectivity.
- Ensured efficient data handling and a clean, user-friendly interface for better team collaboration.
- **Tech Stack:** Flutter, GetX, REST APIs

SKILLS

---

Mobile App Development:

- Flutter, Dart, GetX, REST APIs, Firebase (Basics)
- State Management, API Integration, UI/UX Design
- Version Control and Code Collaboration

Web Development:

- HTML, CSS, Bootstrap, JavaScript
- Responsive Web Design and Frontend Layout Development

Tools & Platforms:

- GitLab, Bitbucket, Postman, Figma,
