<b>Project</b>	: E-commerce
<b>Client</b>	: Zoetis Inc, USA
<b>Duration</b>	: October 2021 to October 2022
<b>Role</b>	: Software Test Engineer.

#### **Description:**

Zoetis is a global animal health company dedicated to supporting customers and their businesses in ever better ways. Building on more than 65 years of experience, we deliver quality medicines, vaccines and diagnostic products, complemented by bio devices, genetic tests and precision livestock farming. We are working every day to better understand and address the real-world challenges faced by those who raise and care for animals in ways they find truly relevant.

Zoetis delivers quality medicines, vaccines and diagnostic products, which are complemented by bio devices, genetic tests and precision livestock farming. We strive to provide veterinarians and the livestock farmers and companion animal owners they support with the resources they need to succeed.

We offer a diverse portfolio of products, services and animal health solutions across eight core animal species. Our farm animal products and services are dedicated to cattle, fish, poultry, sheep and pigs, and our companion animal offerings cater to cats, dogs and horses

**Responsibilities:**

- Analyzed business requirements documents to get a better understanding of the system from both technical and business perspectives.
  - Attending Daily Status calls with Onshore Team for Daily Status updating.
  - Involved in writing of Test cases for UI Validation in Excel sheet
  - Involved in Browser Compatibility Testing on different Operating Systems.
  - Involved in developing Test cases based on SRS.
  - Involved in Reviewing and Executing of the Test scenarios and Test cases.
-
