Profile Summary

Pursuing a Bachelor's degree in Artificial Intelligence and Data Science, expected to graduate in 2025. I am continuously enhancing my knowledge in Data Analytics and Data Science, with hands-on experience in applying analytical and visualization tools to solve real-world problems. Passionate about leveraging data-driven insights to support decision-making and business growth.

Education

Bachelor's in Artificial Intelligence and Data Science, MIT College *Oct 2021 – Apr 2025*

GPA: 7.4

Coursework: Machine Learning, Artificial Intelligence, Data Science, Data Analysis, Comparison of learning algorithms, Deep learning

HSC (Higher Secondary Certificate), SVB College, Bhandegaon

Jun 2019 – Mar 2020

Percentage: 83.80

Skills

Technical Skills: Data Analysis, MS-Excel, Power BI, Tableau, SQL Server, PostgreSQL

Tools: NumPy, Pandas, Matplotlib, Streamlit, Seaborn, Plotly Jupyter Notebook, Git, GitHub

Languages: Python, SQL

Soft Skills: Teamwork, Problem-solving, Decision-making, Creativity, Communication

Projects

Resume Shortlisting Tool

GitHub

Developed an AI-powered tool to automate resume screening using Python and Streamlit. Extracts candidate details (Name, Email, Skills, Education, Experience, City) from PDF/DOCX resumes, with filters for skills, experience, and city. Includes an interactive dashboard with analytics and one-click resume download.

Tools Used: Python, Streamlit, Pandas, scikit-learn, NLP

Car Sales Analysis

GitHub

Designed and developed an interactive dashboard to analyze and visualize car sales data, enabling insights into sales performance across regions, car brands, models, and time periods. Implemented DAX formulas and Power BI visuals (bar charts, KPIs, slicers, etc.) to track metrics like total sales, revenue trends, and regional comparisons.

Tools Used: Power BI, SQL, MS-Excel
