EDUCATION

Bachelors of Computer Science

Rajarshi Shahu Mahavidyalaya , Latur

06/2019 - 05/2022

PROJECTS

News App (Android app)

02/2022 - 03/2022

This app is useful for all readers to read news at any time anywhere.

Tasks

- In this app there several types of news are there , such like
- social, political , sports , science , environment etc. user can customize news according to their choices .

EDA on Hotel Booking (Capstone Project)

08/2022 - 08/2022

Tasks

- For this project we will be analyzing Hotel Booking data. This data set contains looking information for a city hotel and a resort hotel , and includes information such as when the booking was made, length of stay ,the number of adults ,children and/or babies, and the number of available parking spaces.
- The main objective behind this project is to explore and analyze data to discover important factors that govern the bookings and give insights to hotel management , which can perform various compaigns to boost the business and performance.

Bike Sharing Demand Prediction (ML regression)

11/2022 - 11/2022

Tasks

- The problem statement was to build a machine learning model that could predict the rented bikes count required for an hour, given other variables. The first step in the exercise involved exploratory data analysis where we tried to dig insights from the data in hand. It included univariate and multivariate analysis in which we identified certain trends, relationships, correlation and found out the features that had some impact on our dependent variable. The second step was to clean the data and perform modifications. We checked for missing values and outliers and removed irrelevant features. We also encoded the categorical variables.

TECHNICAL SKILLS

MS Powerpoint

MS Excel

MS Word

Android App Development

Machine Learning

LANGUAGES & LIBRARIES

Python , SQL ,Pandas ,Numpy
