Pranay Nikule

Software Quality Analyst

Detail-driven QA professional with hands-on experience in manual testing and a strong ability to troubleshoot and resolve software issues. Looking to apply problem-solving skills and testing expertise in a growth-oriented team to ensure high-quality software releases

Experience

Pune,Maharashtra
Jun 2024 - Present

Manual QA
Bajaj Finserv Health Limited

As a **Production Support Engineer** at Bajaj Finserv Health Limited, I ensure system availability and minimize downtime by performing root cause analysis, troubleshooting production issues, and collaborating with cross-functional teams. I also monitor system performance, assist with software deployments, and maintain clear documentation to support continuous improvement. Previously, as a **Manual QA**, I conducted manual testing, developed and executed test cases, and tracked defects using Azure Devops. I performed regression, smoke, and sanity testing, collaborated with developers to improve test coverage, and participated in Agile ceremonies.

Pune,Maharashtra
Oct 2023 - Jan 2024

Software Test Engineer Intern
ByteSigma Technologies Pvt. Ltd.

In my 3-month internship at Byte Sigma Technologies, I played a pivotal role in manual testing across sports,education, and e-commerce applications. I excelled in problem identification and reporting, collaborating seamlessly with the development team to ensure software reliability.Actively engaged in hands-on experience with specialized testing tools, my journey reflects a commitment to continuous learning and contributing to the quality assurance process.

Nagpur,Maharashtra
Aug 2019 - Jul 2022

B.E in Mechanical Engineering
Priyadarshini College of Engineering

Sakoli,Bhandara,Mahrashtra
Aug 2013 - Jan 2019

Diploma in Mechanical Engineering
Government Polytechnic,Sakoli

Projects

Manual Testing Projects

- Testing on Ecommerce Website.

Description : As a Learner, I created test cases for E-commerce website (flipkart.com),where I created test scenarios, test cases and test steps in excel sheet based on the component using MS-Excel.

- Testing on Banking Domain Website

Description : While doing the certification I created test cases for banking domain web based application (Citi bank) where I created test cases, test cycle in Zypher scale based on modules using tools like Jira,Zypher.

Automation Testing Projects

- Project Name : E-commerce Test Automation

Description : As a learner I did the Automation for E-commerce website (https://askomdch.com/).I created automation scripts for different pages using Core Java, Selenium Webdriver. I used Page object model and TestNG framework as part of projectcompletion. Created test data and locators properties file to store the web elements and test data. Created TestNG suite for end to end testing and run the automation suite on Chrome and Firefox.

Personal Skills

- Good Communication
