Mobile : 9172364566

Objective

Highly motivated **Java Full Stack Developer** with expertise in **Java, Spring Boot, Microservices, React, Database Management, and REST API Development**. Passionate about designing **scalable, secure applications** while optimizing system performance. Seeking an opportunity in a **dynamic IT environment** to leverage my skills in developing innovative software solutions.

Education

Jawaharlal Nehru Engineering College

Master Of Computer Application (CGPA:7.91)

Chhatrapati Sambhajinagar

Aug2022-Aug2024

Vinayakrao Patil College

Bachelor of Computer Science(Per:72.77%)

Vaijapur

Jully2018–Aug 2021

Experience

Java Developer Intern | Hulk Hire Tech,Hyderabad ([Project](#))

(02/2025)–(Tilldate)

Stripe Payment Integration: Developed **core paymentsystem**.Did API integration with **Stripe** utilizing **Spring Boot** for rapid development, with **microservices**, and hosted on **AWS**. Worked in **Agile** team to effectively contribute to end-to-end **Stripe PSP Integration** like Design and development of **corepayment processing system**, build**Payment Status Management**, integrating with **3rdParty Stripe APIs**, process **stripe notification**, building end-to- end **error handling system**, Spring Boot JDBC with MySQL. Building a**security layer** while integrating Stripe & notification processing. Implementing REST Apis standards in the project. Used **design patterns** to build modular systems. **Strong debugging &problem solving skills**. Got an amazing opportunity to explore and implement open source like **ActiveMQ** for **async integration**.

Technologies:Java,SpringBoot,JDBC,Microservices,JSON,Postman,AWS,Git,Maven,Tomcat,MySQL,Lombok,

Ecommerce Multi Vendor Platform ([Project](#))

This guide helps you create a Java full stack application with all the CRUD (Create, Read, Update and Delete) features using React as Frontend framework and Spring Boot as the backend REST API. We will be using JavaScript as the frontend language and Java as the backend language.

Developed a **Multi-Vendor E-commerce Platform** with **Spring Boot (Backend)** & **React.js (Frontend)**.

Customer: Product, cart, and order management, checkout with Razorpay, order history, Wishlist.

Seller: Dashboard with sales and earning reports, product and order management.

Admin : Seller management, coupon, and deal management. This project ensures secure authentication, seamless API integration, and user-friendly interfaces for both customers and Sellers.

Technologies: Java, Spring Boot, MySQL, Spring Security, React.js, Redux Toolkit, Tailwind CSS, Axios, Razorpay, Stripe, STS, VS Code

Project:

Smart Contact Manager ([Project](#))

The project Smart Contact Manager is a web application designed for managing contacts. It uses a combination of technologies including HTML, CSS, Java, and JavaScript. The project structure includes Maven for build management, js the frontend, and Spring Boot for the backend. The features are Contact management, responsive design, user authentication

TechStack: Java, Spring Boot, Maven, SQL, React.js

Employee Management System

This project, developed using Servlets, creates and manages employee details. It stores employee information in a database and performs SQL operations like display, update

TechStack: Java, Servlets, JSP, MySQL, JDBC

Country API with react ([Project](#))

The project you shared is a Country API that combines React for the frontend. The project provides a RESTful API to retrieve details about countries and uses React to create a user interface (UI) for interacting with this API. Displays a list of countries fetched from the API. Shows detailed information about a selected country. Allows users to search for a country by name. Deployed the project with Netlify

TechStack: JavaScript, React.js, API Integration

Skill

C Language , C++, Java, JDBC, Advance Java, JPA , Servlet, Hibernate, Spring MVC, Rest APIs, Spring Boot, Micro service Architecture, Json, Postman Apis, MySQL, Maven, Tomcat, Git, Stripe Payment, Aws, Jira, HTML , CSS , Java Script , TypeScript, React.js

CERTIFICATES

Java FullStack React.js
