Benefits of Virtual Campus Drive

Easy Access

Companies can host a virtual Campus drive from their comfort time either from office /home and students can attend a virtual Campus drive from the comfort of their home

Cost Savings

Connect with College talents virtually without any cost and save up to 1/3rd of the physical event cost.

Hassel-Free Setup

Seamless Integration with the College/University sites. Planning and organizing a virtual campus can have much shorter turnaround times than a physical campus placement drive, hold multiple conversations with candidates, allowing companies to find talent

Exchange Information

Digital tools make it easy to Exchange information and save a good amount of papers. Digital information records are safe and longer accessible.

Higher Attendees

Virtual campus placement drives give a global presence to exhibitors. Engage, assess and placed the candidate pre, during, and post events.

Employer Branding

Make out the employer branding in the talent community, Go live on social media pages, so candidates should get familiar with your brand or would like to learn about you will know which booth to visit.

3D Virtual Booth

An interactive and company-branded 3D virtual booth gives the immersive experience of virtual booths. Let's know your candidates about the employers.

Real-Time Analytics
The analysis of data as soon as that data becomes available on the dashboard. Key data value will be available on the dashboard during, pre and post-event.

Real-Time Assessments
Virtual Platform allows exhibitors to conduct the coding, aptitude, etc. With the use of digital formative assessments, ability to provide candidate reports in real-time.
