PERSONAL SUMMARY

Experienced Flutter Developer with a proven track record of building scalable and responsive cross-platform mobile and web applications. Successfully developed and maintained ERP Apps, and various large-scale apps using Flutter, Dart, and Firebase. Skilled in integrating diverse hardware components, such as thermal printers, barcode printers, RFID readers, LED display boards, and POS machines, into mobile applications.

Expertise in Firebase services (Realtime Database, FCM, Authentication), third-party API integrations (Razorpay, ICICI Payments, Twilio, Google Maps), and payment gateway implementations. Proficient in deploying apps on the Google Play Store (7-8 apps) and the Apple App Store (2-3 apps), with hands-on experience in Flutter Web, Firebase Hosting, and domain management through GoDaddy.

Basic knowledge of Java and MySQL, with practical exposure to backend systems using PHP and MySQL. Passionate about UI/UX design, and committed to delivering high-quality software solutions with seamless user experiences.

SKILLS

Languages and frameworks: Flutter, Dart, Java (basic).
Mobile and web development: Flutter (Android, iOS, web), Firebase hosting
Backend and database: Firebase (Realtime Database, Firestore, FCM, Auth), MySQL (basic)
Payment integrations: Razorpay, ICICI Payments, ICICI POS machines
Hardware integrations: thermal printers, barcode printers, RFID readers, LED display boards, POS devices
API integrations: Twilio (OTP, calls), Google Maps API, other RESTful APIs
DevOps and deployment: Google Play Store, Apple App Store, Firebase Hosting, GoDaddy domain management, custom email setup
Version control: Git, GitHub , Tortoise SVN
Machine learning: Basic implementation in Flutter
Problem solving and optimization: UI/UX design improvements, cross-platform performance optimization, technical troubleshooting

AWARDS AND ACCOMPLISHMENTS,

🏆 Best Developer of the Year – Awarded once for outstanding technical contributions and impactful project deliveries.
🌟 Excellence Performer of the Quarter – Recognized 4 times for consistently exceeding performance expectations and delivering critical projects on time.
🥇 Best Team of the Year – Led a 5-member team to achieve this award, recognizing collaboration, innovation, and successful project execution.
⭐ Best Developer of the Month – Earned this title 4 to 5 times, acknowledging continuous technical excellence and proactive problem-solving.

ACTIVITIES AND HONORS

💼 Freelance Developer: Successfully delivered multiple freelance projects for clients, including ERP solutions, business management apps, and POS integrations.

👥 Team Leadership: Served as Team Leader for 2 years, leading a 5-member team and managing project development, code reviews, and client communications.

🚀 Personal Projects: Developed 7–8 personal projects, including 2–3 large-scale (mega) projects, focusing on ERP systems, payment integrations, and hardware interfacing.

🌐 Personal Website: Designed, developed, and hosted a personal portfolio website using Flutter Web and Firebase Hosting, with custom domain and professional email integration.

🔨 Continuous Learning & Experimentation: Regularly explored emerging Flutter packages, Firebase services, and experimented with integrating new hardware devices and APIs in side projects.

PROFESSIONAL EXPERIENCE

Flutter Developer

Company: SoftwareGen Duration: 13th July [2023] - PRESENT- working Project: Online Munim Billing and Invoicing ERP Software Developed and maintained Flutter-based Online Munim ERP software. Collaborated with cross-functional teams to enhance features and UI. Ensured responsive design and optimal user experience. Resolved technical issues promptly, ensuring smooth releases. Translated client requirements into technical specifications
Skills: Flutter, DART , basic MYSQL ,UI/UX, Integration, Problem-solving.

Flutter Developer

Company: SJ Infotech Jan 2023 - June 2023 ,
Project: Technodesk Billing and Invoicing ERP Software Developed and improved Technodesk ERP using Flutter. Collaborated on feature implementation and UI enhancement. Resolved technical issues and conducted code reviews. Translated client requirements into technical solutions. Skills: Flutter, UI/UX, Integration, Problem-solving.

Flutter Developer

 Grossify services Developed and designed Android application such as Grossify- The Shopping App . Implemented interpersonal skills for improving initial application speed , offline data catching , GCM integration and integrated with clients database service using JSON , XML .
