WORK EXPERIENCE

React.js Developer SkillHub IT Solution

01/2024 - 03/2025

Chhatrapati Sambhajinagar

Work on service base projects ,small startup but good learning.

Achievements/Tasks

- Developed a dynamic and responsive **e-commerce web app** using **React.js** , delivering a seamless user experience.
- Used **Redux Toolkit** for efficient **state management** and scalable frontend architecture.
- Integrated **Node.js APIs** for user authentication, product listings, and cart functionality.
- Strengthened core skills in **HTML** , **CSS** , **JavaScript** , and responsive UI design through real- world service- based projects.

PERSONAL PROJECTS

Swiggy (09/2024)

- Developed a responsive food delivery app similar to Swiggy. Implemented restaurant listings and dynamic menus.
- Built a cart system with add/remove item functionality.
- Integrated user authentication for secure login and signup. Enabled real-time order tracking using WebSockets
- Used React.js for the frontend, Node.js for the backend, and MongoDB for data storage.

OLX

- The OLX project is a React Native app for buying and selling products.
- It includes user authentication, product listings, and search functionality.
