PROFILE

To work for an organization that can help me to enhance my skills, and knowledge and to contribute effectively and efficiently towards the growth of the organization.

PROFESSIONAL EXPERIENCE

Quality Analyst

FTI Technologies PVT. LTD

Domain:- eCommerce (SSL2BUY and CheapSSL)

Project Responsibilities:-

- A strong, experienced QA manual tester, especially in an e-commerce platform like SSL2Buy, should highlight their manual testing experience, familiarity with test management tools (like Zoho), bug tracking tools (like Jira), and web technologies relevant to e-commerce. This can include skills in test case design, execution, bug reporting, and experience with SDLC and testing methodologies.
- Collaborated with cross-functional teams to develop and implement process improvements.
- Analyzed customer complaints regarding product issues and provided solutions as needed.
- Collaborated with cross-functional teams to ensure that product specifications are met or exceeded.
- Implemented corrective actions when necessary to improve overall product quality.

December 2024 –

Present

Ahmedabad, India

Software Quality Assurance

Qable Testlab Pvt Ltd

Domain:- eCommerce, B2B Marketplace, Fantasy Game, Digital Banking.

Tool Used:- Jira, Trello, Zoho, BrowserStack, Discord, Qase, Slack, Team, TestRail, IntelliJ IDEA.

Project Responsibilities:-

- Collaborate with stakeholders to define test objectives and scope.
- Design and document test cases based on requirements and specifications. Writing test cases for new BR/CRs from the client.
- Ensure test cases cover all functional and non-functional aspects of the application.
- Analyzed the new requirements in both positive and negative scenarios.
- Reporting bugs for the issues found, based on the priority and severity of the functionality.
- Involved in daily status review calls to deliver the product on time.
- Defect tracking and status reporting. Identify, document, and prioritize defects found during testing.
- Perform regression testing to ensure that new changes do not adversely affect existing functionality.
- Update and re-execute test cases as needed.
- Work with cross-functional teams (developers, product managers, etc.) to understand requirements and provide feedback.
- Participate in daily stand-ups and sprint reviews to communicate testing progress.
- Mobile Application and Web Application Testing.
- Apart from my work, I am also performing the role of trainer, where I am providing training to new employees for manual testing, Katalon Studio, and test case writing.
- Adept at using **Maven** for build management and **Git** for version control.
- Experienced in cross-browser testing, parallel execution, and generating detailed test reports using tools like **Extent Reports**.

May 2023 –

September 2024

Ahmedabad, India

- Detail-oriented and results-driven QA Automation Engineer with hands-on experience in developing automated test scripts using **Selenium WebDriver with Java** and **TestNG**.

Test Engineer
