DEDICATED SERVERS

Dedicated server is a type of Internet hosting in which the client leases an entire server not shared with anyone else. This is more flexible than shared hosting, as organizations have full control over the server(s), including choice of operating system, hardware, etc.

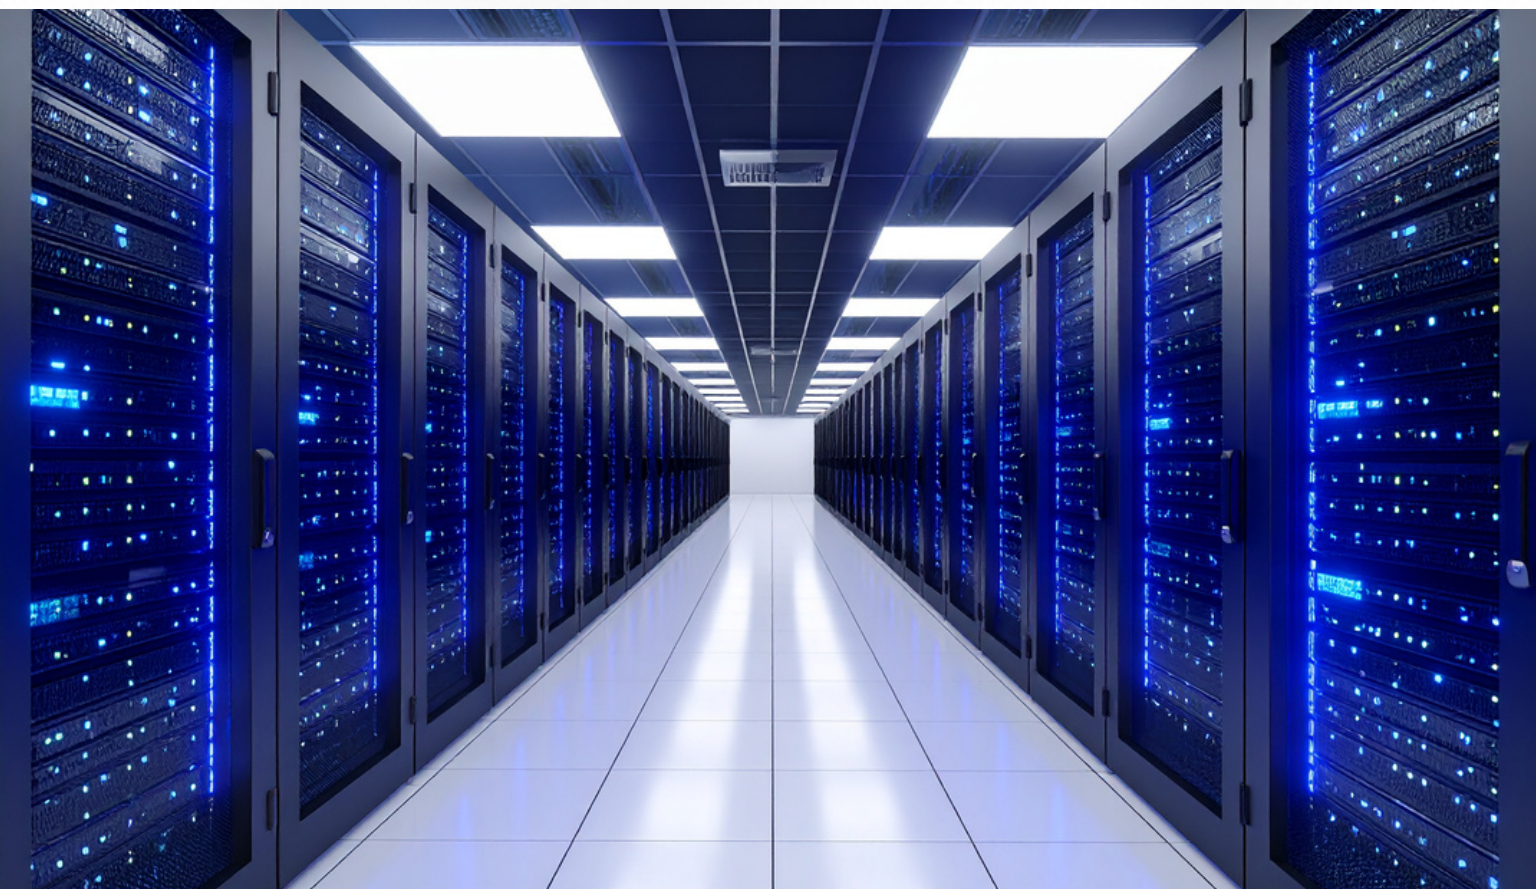

Advantages of Dedicated Server with HostingHome;

- 01- On-Demand Operating System
- 02- Flexible Root/Administrator Access
- 03- Highly Customizable Hardware Configuration
- 04- NVMe SSD Storage
- 05- Custom Configuration
- 06- 99% Power and Network Uptime
- 07- Advanced 24x7 Technical Support
- 08- Higher Reliability

INFRASTRUCTURE

We have partnered with several top-tier service providers to ensure that the data centers hosting our servers are world-class and feature a multi-homed, redundant network. With the support of these state-of-the-art data centers, we guarantee the use of the best routers, servers, and firewall systems.

- State-of-the-art 4 Tier Data Centers
- Best-in-class router, server and firewall equipment
- 100% network redundancy
- 99.99% Network uptime
- 24x7 Network Optimization
- The state of cooling and power infrastructure
- Data Backup
- 24/7 Surveillance Monitoring
- Early Smoke Detection
